Hazard Identified? / Risks from it?	Who is at risk?	How are the risks already controlled? What extra controls are needed?	What has changed that needs to be thought about and controlled?
<p><b>Hazard</b> – Something that may cause harm or damage. <b>Risk</b> – The chance of it happening.</p> <p>Note added by 2<sup>nd</sup> Kirkham in question to the descriptions provided by UK SA - The likelihood is the chance of it happening, the risk is a combination of the likelihood and the expected consequence.</p>	Young people, Leaders, Visitors?	<p><b>Controls</b> – Ways of making the activity safer by removing or reducing the risk from it. For example - you might use a different piece of equipment or you might change the way the activity is carried out.</p>	Keep <b>checking</b> throughout the activity in case you need to change it...or even <b>stop</b> it! This is a great place to add comments which will be used as part of the review.
